

2 hour visit:

Fountains Abbey

Take a stroll from the Visitor Centre to the abbey. An audio tour will help you to find your way around and discover what it was like to live here all those years ago (available at admission points). Can you guess what the stone bath in the cloisters was used for?

Fountains Mill

Walk across the abbey green and over the river to the mill. In the summer months you can enjoy an ice cream from the abbey kiosk. Entering the mill you will be greeted by the people who have worked here over the centuries including Edward Leeming, the son of the last miller. Discover why the mill was so important to the monastery and how its use has changed over the centuries.

From the mill you can look across the orchard to **Fountains Hall**. If you have time you can visit the hall and find out about the families who have lived here. Exhibitions are held in the hall throughout the year (see **What's On** for details).
